

For Inflammation and pain

# Pain Go

## Injection

پین گو  
انجکشن

### COMPOSITION:

Phenylbutazone 200mg per ml.

### DESCRIPTION:

Phenylbutazone is a synthetic, nonhormonal anti-inflammatory, antipyretic compound useful in the management of inflammatory conditions. The apparent analgesic effect is probably related mainly to the compound's anti-inflammatory properties. Chemically, phenylbutazone is 4-butyl-1,2-diphenyl-3,5-pyrazolidinedione. It is a pyrazolon derivative entirely unrelated to the steroid hormones.

### INDICATIONS:

Phenylbutazone is effective in the treatment of painful conditions of the musculoskeletal system in dogs, including posterior paralysis associated with intervertebral disc syndrome, painful fractures, arthritis and painful injuries to the limbs and joints. Phenylbutazone is used for treatment of horses for arthritis and chronic arthrosis (e.g., osteoarthritis of medial and distal bones of the hock, arthritis of the stifle and hip, arthrosis of the spine, chronic hip pains, chronic in trapezius muscles pain and generalized arthritis). Also effective in cases of traumatism, muscle rupture, strains and inflammations of the (Lominitis).

### DOSAGE & ADMINISTRATION:

The intravenous dose for horses is 5 to 10 ml ( 1 to 2g ) per kg, per day. The injection should be administered slowly. Intravenous administration should be limited to five (5) consecutive days. An initial high dose is recommended to obtain a prompt effect. As the symptom regresses, the dose should be reduced.

### PRECAUTION:

Parenteral injections should be made intravenously only, **Do not inject subcutaneously or intramuscularly.** Use with caution in patients who have a history of drug allergy.

### Packing:

50ml, 100ml.

ترکیب: فینائل بیوتازون 200 ملی گرام فی ملی لیٹر

علامات:

درد، بخار، سوجن، سوزش، جوڑوں اور پٹھوں کے درد کیلئے نہایت موثر علاج ہے۔  
خاص طور پر گھوڑوں میں ان علامات کے علاج کیلئے آزمودہ اور موثر دوا ہے۔

خوراک و استعمال:

گھوڑوں میں 10 ملی لیٹر روزانہ 5 دن تک مسلسل

گائے، بھینس میں 10-15 ملی لیٹر

بھیڑ بکری: 1 ملی فی 10 کلوگرام جسمانی وزن

کچھڑا: 6-10 ملی لیٹر

پیکنگ:

### Dosage:

Adult Cattle: 15-20ml/day.

Horse: 1-2ml/100kg b.w/day.

Foals & Calves: 6-10ml/day.

50 ملی لیٹر، 100 ملی لیٹر
